Forecast for Saturday 13 Mar 2021

Weather: Long periods of heavy rain and hill snow overnight with blizzards on the tops. A mixture of bright intervals and occasional snow showers through the day, mainly falling as rain or sleet below 300m. Some showers may be heavy with hail and possibly thunder. Showers becoming more isolated through the evening.

Chance of cloud free mountain/hill tops above 600m: 10% overnight then 40-60% during the day.

Visibility: Very poor at height overnight. Occasional cloud above 600 or 700m, with patches down to lower slopes in showers. Excellent between showers, especially in the east. Visibility quickly changing as showers pass through but you will see these approaching from the west during the day.
